Finishing Touch

Regal Beauty's **Model in a Bottle** makeup-setting spray is the perfect solution for maintaining foundation and eye makeup throughout the day and night. Developed to eliminate the need for touchups and reapplications, Model in a Bottle is quick drying and absorbs excess oil without

clogging pores, leaving a translucent, matte finish. It's formulated with aloe vera extract for added moisture and a clean, fresh scent, and it won't interfere with or reduce the effects of SPF products. Customers simply apply their makeup as usual, then spray on Model in a Bottle. For more info, call 888/444-5044 or visit www.modelinabottle.com.
